PROFILE

Driven by curiosity and passion, I'm a full-stack developer with 3 years of web development experience. Committed to best practices and efficient code, I thrive in agile, multi-cultural environment. My background in engineering, leadership, and hands-on experience at Integrify and Ontime-Research give me a unique approach to software solutions.

SKILLS

Core Technologies: JavaScript, TypeScript, Node.js, React.js, Redux

Front-end: Accessibility, Material-UI, Gatsby.js, GraphQL, SCSS, SEO

Back-end: Express.js, Node.js, REST API

Database: MariaDB, MongoDB, Mongoose, MySQL, PostgreSQL

DevOps: Docker, Git, GitHub, CI/CD, Heroku, Jenkins, Kubernetes, Netlify

Additional: Agile Development, Confluence, Contentful, Figma, Jira

RECENT PROJECTS

Ontime-Research B2B App (private repository)

JEST, Redux, Material-UI, TypeScript, Sequential Workflow Designer (nocode-js)

Utilized technologies to elevate user experience, improve functionality, and ensure robust testing. Collaborated with a skilled team to optimise features development.

Library-App-Full-Stack

Express.js, MongoDB, React-Bootstrap, TypeScript, Heroku, JWT Authentication

Independently crafted a full-stack application to facilitate book borrowing services for a public library. Created the application from scratch, including data structure design.

Pragmatic Intelligence Consulting Website

Gatsby.js, GraphQL, Figma, Contentful, Mailchimp, Netlify

I implement front-end features and SEO strategies for the website.

EXPERIENCE

Frontend Developer

Ontime-Research | Helsinki, Finland | October 2022 - October 2023

As a Frontend Developer, I utilized Material UI, React, React-Query, TypeScript, Redux, JEST & Sequential Workflow Designer. I used Git and GitHub extensively for version control and collaborated closely with other developers and designers.

Full Stack Developer

Integrify | Helsinki, Finland | October 2021 - August 2022

As a Full Stack Developer, I've worked with technologies like TypeScript, React, and Redux. My experience also includes backend development with Node.js, Express.js, along with Jest testing and DevOps practices like Docker and GitHub Actions.

Web developer

Integrify | Helsinki, Finland | Nov 2019 - April 2020

Served as a front-end developer in a consulting project, collaborating with UI/UX designers and leveraging technologies like Gatsby.js, GraphQL and Implemented SEO.

Service Team Lead

SOL palvelu | Helsinki, Finland | April 2016 - Oct 2019

Construction Site Engineer

Saif Humaid Building Contracting | Dubai, UAE | Nov 2009 - Sep 2011

Assistant Project Engineer

Dredge Bangla (Pvt.) Limited | Dhaka, Bangladesh | June 2009 - Oct 2009

EDUCATION

Vocational Qualification in ICT

Business College Helsinki | Helsinki, Finland | Jan 2021 - June 2022

M.Sc. in Construction and Real Estate Management

Berlin University of Applied Science | Berlin, Germany | 2012 - 2015

B.Sc. in Civil Engineering

Chittagong University Of Engineering and Technology | Bangladesh | 2004 - 2009
